gest. = gestorben = died (date of death)

Sic = means that the data was entered just as it was written, even though it may seem to be in error. Letter or number bolded are in question.

Notes:

- Unless otherwise indicated, the notes those of the person who examined the headstones and recorded the information: *Jean and Burt Rentmeister* and *Ruth Worthing*
- R-036 is not a cemetery record *per se*. It is a small section (1978-1988) of the parish death register. We have included below persons listed in that register who were buried at St. John's in New Fane.

Location: Auburn Township, Section 26

This church is located at the junction of highways S and BB, on the northeast corner of the southeast quarter of Section 26. The land for the church was bought in 1861 from Henry and Elisabeth Heberer who received \$14 for the 308 square rods. The first church of logs was built that year though the deed was not registered until January of 1863. A log school was built in 1866. The present church was built in 1871 and additional land purchased in 1874.

This distinctive church was built of stone from the locality. The members of the church brought in the stone and built it themselves. The church is of the Lutheran persuasion.

The lists will be given in three arrangements:

- the original order (how they were in the Reese envelope)
- alphabetical order
- chronological order, according to date of death
