

R-047

Index

R-047 is a notebook consisting of Mr. Reese's field notes on many individuals in the area, as well as on some businesses. In some instances, the notes amount to very brief biographies, usually focusing on the work or business in which the individual was engaged.

Note: *Not every name that appears in the notebook is entered here. In many instances, no information is provided about a person except that he was one in a line of subsequent purchasers of a given property. Generally speaking, only the first person to own or develop a property or business is mentioned. Exceptions would be if a subsequent owner did something of note or was well known.*

The list is provided in alphabetical order only.
