

The Margaret Wenzlaff Scrapbooks

The first 16 scrapbooks consist of news clippings from Campbellsport, Wisconsin, area newspapers, spanning the period March, 1954 through sometime in 1991. The pages near the end of book 16 are not dated, so we can only estimate what the end date was.

Ordinarily, the name of the newspaper is not there, but most appear to be from THE CAMPBELLSPORT NEWS. There are four additional scrapbooks, dealing with local, national, and international news, including clippings on the Robert Kennedy and Martin Luther King assassinations and the space missions. Book 20 covers the 50th wedding anniversary of Syl and Margaret Wenzlaff.

Because of the vast amount of material in the books, only 2 categories have been indexed: 1) obits, and 2) articles relative to engagements, marriages, or anniversaries. The latter includes notices about marriage licenses, where the couple was going to live, or similar items. We have tried to include any article that might give a genealogical researcher needed bits of information regarding the couple.

The **dates** given in the index are *usually* the date the item appeared in the newspaper. If the article gave the actual date of the event, then that date is sometimes given, unless there is a large difference between the date of the newspaper and the date of the event. An example might be an engagement announcement, when the marriage date is perhaps as much as 2 years in the future. The date that the announcement appeared in the paper is the date that is given. (Some indexers may have given only the marriage date. Also, some indexers did not record engagements at all for the first part of the album they were indexing.) There were many clippings on each page, but only one date was given at the top of the page, and that consisted only of the month and year. Furthermore, in a fair number of cases, there was no date at the top of the page. The person doing the index then had to estimate the date, based on previous and subsequent dates that were given.

If the index states that there should be something about a certain person in a given month, and you cannot find it, examine the appropriate pages again. Near the bottoms of pages there are crowded together many small clippings that do not have a headline. It may be there.

What we have entered online is merely the index. Persons who wish to examine the actual article will need to come to the CAHS site to do their research. The extra effort is worth it. You may find yourself reading well beyond the time you had allotted!

We are grateful to the group of about 12 volunteers who accomplished the huge task of indexing the volume of information contained in the scrapbooks.

N-04, May, 1960 – May, 1962

The index tables can be read as follows:

1. At the top of each page you will find the beginning and end dates for that scrapbook.
2. The first column gives the name(s) of persons about whom the article was written. In articles that deal with couples' engagement, marriage, anniversary, etc. there is a double entry, one for the bride and one for the groom. Since all entries were alphabetized, the bride and the groom are probably on separate pages.
3. The second and third columns have a W and an O at the top. If the W column is checked, that means that the article has something to do with the person's wedding, anniversary, engagement, etc. If the O column is checked, that means that the article is an obituary.
4. The 4th column gives the item number for this album.
5. The last column gives *the date the article appeared in the paper*. Usually, but not always, there is a date (month and year) at the top of each page. In cases where there was no date at the top of the page, the date given is an estimate based on previous and subsequent pages where a date is given. At times, an exact date of the event is given in the article itself.
