## Research Notes

Entered on computer by S. Connie Halbur, Summer, 2005

This “folder” consists of a small financial-type ledger. Mr. Reese wrote the word “Research” at the top of the first page. It appears that at least some of the entries were his response to requests for genealogical information. In some cases there is merely a name, with no information following it. The entries are copied just as Mr. Reese wrote them. Any notes added by Halbur are in italics, in brackets.
