## Building Permits

### Permits Required:

New Buildings, homes, sheds, garages, businesses.

Additions or Alterations to existing building (remodel)

Re-roofing & Siding

Window replacement

Decks or deck additions (attached or detached)

Garages (attached or detached)

Sheds over 200 sq. ft. – all sheds also require a zoning permit

Pools – with a water depth of 3ft. or more and/or a capacity of 1,000 gallons or more require a building, zoning and electrical permit. If pool is in ground or with sides less than 42" at any point a fence is required.

Fence – zoning permit only

Electrical service – new or re-wire

Major building equipment replacement – Furnace, AC, water heater or water softener.

Driveway or Terrace Opening – special Village permit required/ application approved by DPW.

### NO Permit Required:

Finishing of interior surfaces

Installation of cabinetry

Repairs which are deemed minor by the building inspector

Normal Repairs of HVAC, plumbing and electrical equipment or systems such as replacing switches, dimmers or faucets.

Poured or paver patios – but they do require a pre-approved drainage plan filed with the village. Stop at village hall for instructions.

When in doubt, please call our building inspector Tony (Doc) Leonard at 262-364-9597.

Permit applications can be picked up at Village Hall or on the village website,
