## Sewer and Water Committee Meeting

Wednesday – June 3, 2015, 10am CONTINUED Monday – June 8, 2015, 8am  
Village Council Room, 177 East Main Street

Chair Dave Schellhaass called the meeting to order at 10 am Wednesday, June 3. Present: Mark Gruber, Bill Hess, Becky Tellier, Joanne DePonte, Gene Wenzlaff, and Dave Schellhaass

DePonte made the motion to approve the minutes from 3/16/15, seconded by Wenzlaff.

The sewer main grouting is complete. Hess informed the group that 700 gallons of grout were used and the cost was around \$13,000. No sewer manhole repairs will be schedule for the remainder of the year due to the expense of the grouting.

At the Wisconsin Rural Water Convention, Hess received information on several brands of lateral cameras. ProCam is located in Menominee Falls so it would be convenient for repairs. UEMSI sells VerESight brand cameras and offers loaners when repairs are being done. The Public Works Department will be try to demo some different lateral cameras and then bring information back to the committee on the best camera to fit the Village needs.

Jim Dorst has made a request for assistance with some of the landscaping costs after repairs were done at his property (536 Redwing Court). Their home was built by Mueller Development and Shellhaass will contact Nick Mueller to request cost-sharing with the Village for the repairs that were necessary. DePonte made the recommendation to move forward with the cost of the driveway replacement at the Dorst property.

Gruber received a cross-connection proposal from HydroCorp and the intent is to have them do the Commercial and Industrial cross-connection inspections and take over the reporting to the state every 2-years. HydroCorp would then be in charge of making sure compliance is met. If the proposal is approved, the charge would be \$881 per month for 36-months and this would need to be budgeted for 2016. Gruber will try to set up a meeting with the full board where a presentation can be done by HydroCorp.

The meeting was adjourned at 11:55 am (Wenzlaff, DePonte) and will resume at 8 am Monday, June 8.

Sewer and Water Committee Meeting

Wednesday – June 3, 2015, 10am CONTINUED Monday – June 8, 2015, 8am

Village Council Room, 177 East Main Street

Chair Dave Schellhaass called the meeting to order at 8:03 am, Monday June 8. Present: Mark Gruber, Bill Hess, Becky Tellier, Joanne DelPonte, Gene Wenzlaff, and Dave Schellhaass

We are still waiting for bills to be submitted for the sewer lateral replacement at the Arthur Tomlinson property (422 East Main Street) so this item will be discussed at a later date.

The amount of information recently requested by the Public Service Commission was discussed. We will work diligently to put the information together for them and have it in the mail by Friday, June 19. If the information is not in a format they understand, we will request that someone come here to go over the documents.

The auditor again suggested after completing 2014 PSC Annual Report that water and sewer rate increases are necessary. Once we have the information submitted to the PSC, they will hopefully allow us to move forward with water rate increases. Sewer rate increases do not need PSC approval.

Adjournment took place at 9:49 am by voice vote.
